Works Presented

- *Kani: A Lightweight and Highly Hackable Framework for Building Language Model Applications*. NLP-OSS @ EMNLP 2023.
- *ReDel: A Toolkit for LLM-Powered Recursive Multi-Agent Systems*. EMNLP 2024 Demo.
- *FanOutQA: A Multi-Hop, Multi-Document Question Answering Benchmark for Large Language Models*. ACL 2024.
- *Overhearing LLM Agents: A Survey, Taxonomy, and Roadmap.* Preprint, 2025.

What is an LLM Agent?

- An AI that humans can give instructions to, which they carry out autonomously?
