Recursive delegation can improve performance 0-shot

41

Help me plan a trip to Japan visiting 3 cities.
I'll need to find flights, hotels, trains, and food.
Search for flights to Japan...
FlightSearch[SFO, NRT]
Find hotels in Tokyo, Osaka, ...
Search for a hotel in Tokyo...
Search for a hotel in Osaka...

Recursive Multi-Agent Systems improve downstream performance with *no task-specific tuning...*

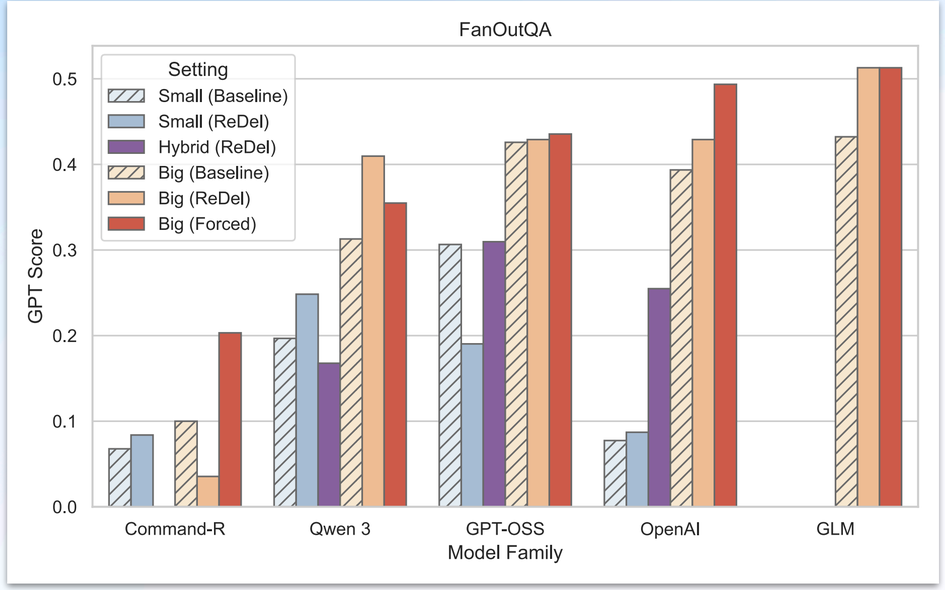
But there's still room for improvement in effective delegation.

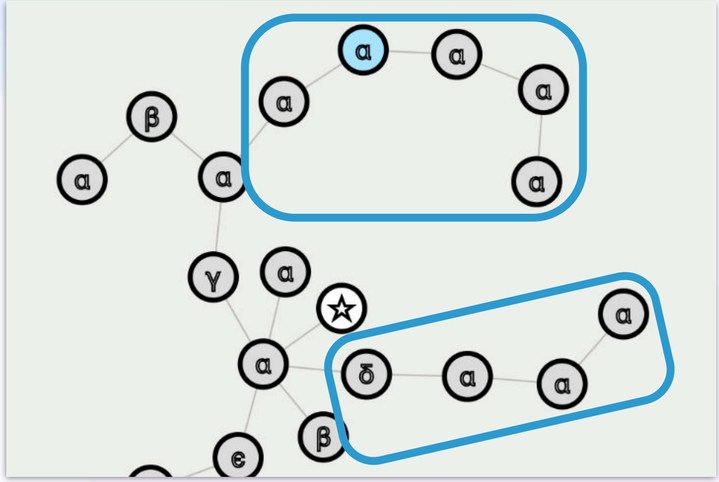
ReDel Conclusions

Recursive delegation can improve performance 0-shot

Recursive Multi-Agent Systems improve downstream performance with *no task-specific tuning...*

But there's still room for improvement in effective delegation.





Proposed Work: Learning to Delegate
